DETAILED ACTION

1. Newly submitted claim 38 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claim 38 is directed to a method of producing a heat exchanger including using hydro-forming to form a semi-finished product into a header box, while the remaining claims are directed to a heat exchanger and a charge air cooler which could made by another and materially different process that did not include steps of providing a semi-finished product and using hydro-forming to form the semi-finished product.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 38 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 1-29, 31, and 34-37 are allowed.
3. This application is in condition for allowance except for the following formal matters:

Claim 38, which is withdrawn from consideration as being directed to an invention non-elected by original presentation, should be cancelled.

Art Unit: 3744

A call was placed on 14 August 2009 to the office of attorney Paul Strain to request authorization to cancel claim 38, but authorization to cancel the claim was not received.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
